

BURIED TREASURE

Tell a family member about your visit with Swanky Kitchen Band, and how they are working to preserve their traditional music and culture that otherwise might disappear. Ask them if there are any traditions from their childhood that seem to be dying out and if there is anything that they or you could do to help these traditions survive and continue?

The Caymans were a stopping point for many famous pirates, including the legendary pirate Blackbeard! Imagine that you could fill a treasure chest not with gold but with important traditions that you, your family and members of your community would want to be sure are not forgotten.

Fill your chest with the "treasure" unearthed during your interview or those who want to go further, add some of your own ideas as well!
